

ELIAHU NETANEL SHAMMAH

Raanana, Israel | 050-3072852 | eliahunetanel@gmail.com

GitHub: github.com/eliah-shammah-projects | LinkedIn: linkedin.com/in/eliahu-shammah

Junior Backend Developer and DevOps Engineer with hands-on, production-grade experience deploying applications with automated pipelines on AWS, including AI-integrated features. Deepening AI engineering skills through hands-on work with Claude — LLM fundamentals, prompt engineering, and agentic systems. Background in education and leadership abroad, bringing strong communication, intellectual sharpness, and the ability to grasp complex concepts quickly.

PROJECTS

Psych AI Chat — Prompt Engineering & AI Personas · [GitHub](#) · [Live](#)

Web app where users pick a therapeutic approach and converse with a distinct AI persona — 7 approaches (Psychoanalyst, CBT, Gestalt, ACT and more), each driven by an engineered system prompt.

- Designed system prompts producing 7 consistent, contrasting Claude API personas; temperature tuned per approach (range: 0.4–0.9).
- Automated CI/CD: pytest → Docker → ECR → EC2 deploy; infrastructure provisioned with Terraform.

Stack: Python, Flask, Claude API, Docker, AWS (EC2, ECR), Terraform, GitHub Actions.

CashFlow — Full-Stack Personal Finance App (production) · [GitHub](#)

Flask/MySQL app with AI voice input (Groq LLM) and 12-month cash flow forecasting, built in collaboration with a development partner.

- Automated pipeline via GitHub Actions: Pytest on live MySQL → build → deploy to AWS EC2.
- Infrastructure as code with Terraform (EC2, ECR, IAM) + Prometheus/Grafana monitoring.

Stack: Python, Flask, MySQL, Docker, AWS, Terraform, GitHub Actions.

TECHNICAL SKILLS

Languages: Python, SQL, HTML/CSS.

Frameworks & Backend: Flask.

DevOps & Tools: Git, GitHub, Docker, Linux, AWS (EC2, ECR), Terraform, GitHub Actions.

AI Tools: Claude API (Anthropic SDK), system prompt engineering, temperature tuning, Claude Code.

EXPERIENCE

Community Educator | Or Israel Community, Raanana | 2025 – Present

- Leading educational sessions and workshops for the local community.
- Managing community engagement initiatives, developing communication and mentorship skills.

Teacher & Educational Leader | High School Yeshiva, Brazil | 2022 – 2025

- Relocated to Brazil for a 3-year mission, leading educational programs and teaching local students.
- Demonstrated strong leadership and responsibility while adapting to work effectively in a foreign environment.
- Developed strong interpersonal skills, managing people and handling challenging situations.

EDUCATION

Software Development & DevOps Orientation | Mego (in collaboration with ORT) | 2025 – 2026

Intensive professional training program for high-tech professionals. Focusing on Full-Stack development, software architecture, and modern DevOps tools.

LANGUAGES

Portuguese (Native), Hebrew (Fluent), English (Advanced), Spanish (Advanced).
